

Anthony Smith

Software Development Engineer

(253) 508-2309, anthony.smith353@gmail.com

Professional summary

Software Development Engineer with over 5 years of experience in crafting scalable web applications and optimizing business processes. Skilled in AWS technologies, Java, and TypeScript, with a proven ability to reduce manual labor by over 50,000 hours annually and enhance operational efficiency by 30%. Passionate about leveraging technical expertise to drive innovation and deliver impactful solutions in a collaborative environment.

Employment history

Software Development Engineer (SDE), 2021 - Present

Amazon, Bellevue

- Engineered scalable web applications, automating investigative workflows and reducing manual effort by 50,000+ labor hours annually.
- Developed resilient backend services, integrating multiple data sources and optimizing data aggregation with AWS technologies.
- Enhanced front-end efficiency, implementing advanced filtering, accessibility features, and data export capabilities to improve user productivity.
- Automated business processes, eliminating the need for thousands of manual adjustments per week, allowing investigators to focus on higher-value tasks and accelerating case resolution.
- Optimized enterprise-wide reporting, streamlining leadership communication and reducing administrative workload across global teams.
- Streamlined onboarding and training, reducing ramp-up time from 12 weeks to 8 weeks without compromising investigation quality, ensuring new investigators reached full proficiency faster through guided workflows and interactive learning.
- Led rapid development cycles, delivering MVPs within aggressive timelines, conducting user testing, and iterating based on feedback to maximize adoption.
- Designed resilient microservices and optimized system monitoring, elevating process efficiency with AWS and agile solutions.
- Streamlined CI/CD pipelines and enforced coding standards, reducing deployment errors and boosting team productivity with DevOps practices.

FBA Support Operations Associate Advisor, 2017 - 2021

Amazon

- Led QA for investigations, enhancing workflow and mentoring auditors for accuracy gains.
- Managed order escalations, ensuring compliance and operational excellence in FBA.
- Implemented process changes, achieving measurable improvements in FBA operations.

Investigation Specialist, 2016 - 2017

Amazon

- Conducted high-value missing inventory investigations, optimizing processes to reduce reimbursements by \$5M.

Education

B.S. in Computer Science (Real-Time Interactive Simulation), Sep 2011 - Dec 2013

DigiPen Institute of Technology, US

Full Stack Web Development Bootcamp

University of Washington, US

Skills

Java, TypeScript, SQL, HTML, CSS, React, Node.js, Bootstrap, Jest, Lambda, S3, IAM, DynamoDB, RDS, API Gateway, KMS, Redshift, VPC, Cloudfront.
